

MEMORIAL PLANS

Well Attended Meeting of Committees Decide on Order of March.

LONGEST PARADE IN LOCAL HISTORY.

Final Meeting of Arrangements Committee Will Be Held on Sunday — Music Will Be Dispensed by Band.

Last night's meeting of the joint committee from the Chamber of Commerce and the veterans was the best attended of any thus far of the meetings held to make preparations for the exercises on Memorial day.

After much discussion, it was finally decided what the order of march will be. E. C. Beck was appointed chairman of the committee to plan the order of parade and he will call together on Sunday afternoon his assistants and prepare a program for the day's exercises.

Dick Hartman was present at the meeting and made a spirited talk in favor of having the G. A. R. veterans march at the head of the procession. It was finally decided that after the police and ranger escorts would march the children with flowers.

Owing to the absence of the secretary, Fritz Volker was chosen temporary secretary.

Rev. Harvey M. Shields brought to the meeting the contribution of John Foster, the latter being too ill to attend.

The report of the committee on finance showed that no money has been collected since the last report. As a result a committee of four, consisting of William Emerick, Dan Angius, Dick Hartman and Capt. Fenderson, will thoroughly canvass subscribers to the fund. Hartman and Fenderson will go out today while Emerick and Angius will do their work Monday.

On motion of Rev. Shields the band will be engaged for the parade. Other vocal music will be rendered at the graves.

Besides the local exercises, two teams have been engaged to transport flowers and a firing squad to Evergreen cemetery, where services will also be held.

Capt. Fenderson reported that he had seen W. H. Brophy, and the latter donated his carriage and driver for the use of the Governor and escort.

The head of the parade will form at the Palace Stables and formation will be in the following order: Cordon of mounted police; Rangers, headed by Capt. Tom Rynning; children bearing flowers; band; G. A. R. Veterans; Spanish-American War Veterans; Governor and invited guests in carriages; Mayor and City Council; and secret and fraternal societies in the order of their rank.

GREATNESS OF ARIZONA AS TOLD BY BEALL

The following is an extract from the speech of Congressman Beall, of Texas, in opposition to the joint statehood bill.

"Arizona has in round numbers 114,000 square miles, while New Mexico has 121,000. Arizona, the smaller of the two, is larger than New York and Pennsylvania, with New Jersey, New Hampshire and Delaware thrown in. It is more than twice the size of Illinois, nine and one-half times as large as Maryland, twelve times as large as Vermont, thirteen times as large as Massachusetts, fourteen times as large as New Jersey, twenty times as large as Connecticut, fifty-five times as large as Delaware, ninety-one times as large as Rhode Island. It is as large as Indiana, Ohio and Virginia combined. So it can hardly be claimed that either of these territories is wanting in sufficient area.

"Have they sufficient wealth to properly support and maintain a state government? The wealth of Arizona has been estimated to be about \$400,000,000. She has almost 2,000 miles of railroad within her borders. Thinner of road mileage is worth four times the value of all the property in Ohio, Indiana or Michigan when these states were admitted. Its mines yielded in one year last year—\$90,000,000, which is double the value of all the property of some of the states when admitted. It is before the copper producing district in the Union and will soon be the first. There are 20 banks in Arizona, with resources of more than \$1,500,000. She has the largest unbroken forest in the world, with an area in excess of 6,000 square miles, and with timber reserves of more than 7,000,000 acres. It has hundreds of thousands of acres of land that a few years ago were a part of the desert, that have felt the vivifying touch of irrigation and are now producing in marvelous abundance.

"Arizona has an educational system of which she may well be proud. In her American population there is comparatively no illiteracy. She has a compulsory system of education, with 22,000 children filling her school rooms. She pays the highest salaries to her teachers, and has in her schools a larger per cent of college bred teachers than any state in the Union. She has her system of high schools and a Territorial University.

"She has her asylum for her unfortunate and her penitentiary for her vicious. She has a splendid capital and other public buildings. Her bonds are selling above par in the market places. She collected in taxes last year \$675,504.35, and expended \$593,71.49. All this development has occurred and all these things have been accomplished while she has been fettered and oppressed by her dependent position as a territory. If given the privilege of statehood and the advantage that will result, who can forecast what her development will be during the next decade?

ARE 1915 SCHOOL CHILDREN HERE

SCHOOL CENSUS SHOWS THAT BISBEE HAS MADE GAIN OF ABOUT THIRTY-FIVE PER CENT DURING PAST YEAR—OF TOTAL 609 CHILDREN ATTEND NO SCHOOLS OF ANY KIND—GOOD SHOWING

Bisbee's total number of school children is 1915. This total is for those in the city between 6 and 21 years. It is a gain of about 35 per cent over total of a year ago. In 1905 there were but 1412 school children in the district.

The figures are for Bisbee, Lowell, South Bisbee and Don Luis and Bakersville, all of which are included in the Bisbee school district.

Figures were obtained yesterday from J. J. Patton, who has just completed the census after spending a month visiting every home and place of business where information could be obtained.

"We are more than pleased with the showing that has been made," said C. F. Philbrook, superintendent of city schools, yesterday afternoon. "It means the largest appropriation the Bisbee schools has ever had, and puts us close to the first rank of Arizona cities."

Patton's report, which will be submitted to the board of school trustees, shows that of the 1915 school children in the district, 961 are white boys and 925 are white girls. There are 28 colored boys and 21 colored girls.

The total number of children between the ages of 8 and 14 years, and the number attending between the ages of 6 and 21 years is 1235. Forty-seven are attending private schools.

It is interesting to know that there are 609 between 6 and 14 years of age, who are attending no school at all. This total is made up in part of those who have graduated, and many who are married, but not yet 21 years of age. Here are more interesting figures: 1004 of the children are native born of native parents; 162 are native born, with one foreign parent; 489 are native born, with both parents foreigners; 260 were foreign born of foreign parents. The greater part of the foreign-born children are Mexicans.

Members of the school board yesterday expressed themselves as being highly pleased with the manner in which the census has been taken and the large number that have been entered in the records.

RAGERS ACTIVE ARE IN EL PASO

Meet to Further Prepare for Arthur Brown and Eula King Hose Team, Which Will Be Winner. Went to That City to Get Married.

To raise funds by giving the people their money's worth, instead of by popular subscription, members of the Bisbee hose team last night decided to give a grand ball in the opera house on the night of Friday, June 18.

As a committee on arrangements to begin preparations for the ball, H. G. Ellison, Walter Bowman, James Welsh, John Scott and James Munch, were appointed to take charge. They will begin their duties without further delay.

The names of those who will try to make the hose team were taken last night, the following signing up: Richard Darnell, Clyde Boulden, Chick Elston, James Welsh, Carl Reed, De Yoho, John Scott, Joe Strickler, F. L. Gibson, Charles King, Fred Kenney, Hardy Allen, John Blair, Will Hankins, John True, Charles Haslam, John McAuliffe, John Munch and Percy Walton.

After last night's meeting, Secretary Munch announced that the team has decided it should be understood that any runner in the city who wishes to try for the team is invited to come out, and he will be given a try-out. Every member of the team last night promised that he would take tickets for the dance and sell them among his friends. It is believed that by this means a large number will be sold. Another meeting will be held Saturday night to further discuss plans for the hose team, which promises to be the fastest ever organized in the Southwest.

FIXED SCALES PREVENTS FIGHT.

(Continued from Page 1.)

"I had Nelson at McCarey's office at 6 o'clock. We found the scales out of order. I wanted to go to the baths and weigh, but Herrera refused. I then stated that I would claim the weight forfeit and went back to the baths.

"Nelson came into the ring, as you saw, and made a proposition to fight him at 140 pounds. That is something that a champion in his class never offered to do before. He had everything to lose, and I did not approve of it, but he wanted to fight and wanted to satisfy the crowd."

Manager McCarey of the club said: "Twice during the afternoon the scales were tested and found correct, but at 6 o'clock when they came to be tested again they were fifteen pounds off, and it was impossible to get the men to come to an agreement. I am very much disappointed over the fiasco, but I could do nothing to bring them together."

DIVINE SARAH IN WRECK IN KANSAS.

(Continued from Page 1)

ing, but was flagged in time to prevent a collision.

Bernhardt was wild with excitement and ran back and forth between her car and the locomotive. She demanded a new locomotive, even after the derailed engine was replaced on the tracks. She claimed the locomotive was hoodooed and refused to permit her train to go ahead.

The railroad was blocked several hours. The tender of the locomotive of her train ran along the ties half a mile, the locomotive finally leaving the rails, but remaining upright.

London has over 500 automobile accidents a month. Will the gentleman who is always telling us that they do things better in England please sit down and take a much needed rest.

IS WANTED HERE

Warrant Served on Dean Elliott in Los Angeles Jail for Bisbee Offense.

OBTAINED MONEY UNDER FALSE PRETENSES.

Came Here Claiming to Be San Francisco Refugee, and If Not Convicted in City of Angels Must Return Here.

Arrested on a warrant in Los Angeles, charging him with obtaining money under false pretenses in Bisbee, Dean Elliott will be brought to this city to face his accusers in the event of the California courts failing to bring about his conviction on a felony charge.

City Marshal Snodgrass yesterday received a letter from Chief of Police William H. Aubrey stating that the warrant for Elliott's arrest had been received in Los Angeles, and served on the prisoner.

Pending the outcome of his trial in the Los Angeles court, Elliott will remain in the county jail in this city. Failure to convict him will mean his conviction in this city, the evidence against him being of an unusually positive character.

W. B. Fraser, assistant engineer at the Calumet & Arizona, swears to the complaint against Elliott, charging him with having obtained over \$100 by false pretenses.

Fraser made the complaint in Justice Murphy's court several days ago, but it was not made public until yesterday, the officers keeping the matter to themselves until notified that the warrant had been served.

In case Elliott is freed in Los Angeles, it will be up to Sheriff Hunt to decide whether or not he should be brought back to this county, the matter now having passed out of the hands of local officers.

If Elliott is brought back here evidence will be produced to show that he arrived in the city and declared himself a San Francisco refugee, going to Mayor Caven, from whom he received a letter of introduction to H. B. Paul of the Calumet & Arizona.

Paul referred Elliott to Fraser, who gave him employment as an electrician, the alleged referee asserting that it was his line of business. Being without tools, several at the Calumet & Arizona, who were interested in his case, supplied him with them.

Before he had been employed a day, Elliott began his graft. He told several stories regarding the trying time he had in San Francisco. He arrived there so he said, two days before the earthquake. He had just buried his wife in Korea.

While in San Francisco, Elliott said, with tears in his eyes, he was walking along Market street with a sister. Without warning a sign fell several stories, striking his sister and killing her instantly.

The strength of his claim, Elliott was able to get a considerable sum from the Calumet & Arizona employees, who out of the fulness of their hearts came to his assistance with money.

Then suddenly Elliott got a telegram from Los Angeles, saying that his little boy was dying, and for him to come at once. The Calumet & Arizona employees raised enough money for him to make the trip.

No sooner did he land in Los Angeles than Elliott wired to Fraser for more money. Shortly after sending the dispatch he was arrested by the Los Angeles detectives for a crime committed in that city.

Eighty dollars was raised in Lowell for Elliott, and wired to him. This he got while in jail. It was the first intimation the Los Angeles sleuths had that he had been in Bisbee. They are now of the opinion that he planned the robbery of the Copper City Brewery in Douglas, furnishing the dynamite which blew open a safe and made possible the theft of \$600 by the robbers.

CAMPBELL CASE GOES TO JURY SOMETIME TODAY.

(Special to Review.)

TOMBSTONE, May 24.—The case of J. C. Campbell, who has been on trial for the murder of James McLaughlin, will go to the jury sometime tomorrow. The evidence for both sides was completed this afternoon. In the morning the jury will be charged by Judge Doan and the attorneys begin their arguments.

Judge Doan released Sanchez, charged with stabbing Duffy at Lowell, on a writ of habeas corpus. It was done on the ground that when the case was before Justice Hogan in Lowell, that official made the mistake of finding him guilty.

A railroad foreman in North Carolina shot and killed seven men in three minutes. The Florida Times Union declares that at this rate he could do the entire Mt. Dajo work in four hours by seven minutes and eight and four seventh seconds.—Boston Herald.

Doctor Wiley says that no pure Scotch whiskey is ever sent into this country. Now is the time for the benevolent Scotchman who has been endorsing libraries to do something for folks who don't care especially for libraries.—Atlanta Evening Journal.

Somehow the neighbors always think the sad look on a married woman's face is due to the action of her husband.

Do not try to find out too much about your friends if you would retain their friendship.

REVOKED POWER OF ATTORNEY.

tion is this: The Kansas City stockholders, who are the El Tigre Mining Company, are now likewise in control of the Escondido Mining Company which heretofore has been engaged in an attempt to regain control of the property. The suit of the Escondido Mining Company against the El Tigre Mining Company will be dismissed, no doubt, by a majority vote of the stockholders just as soon as a meeting can be called for that purpose and in that event the litigation, which at first gave promise of being long drawn out, will be speedily brought to an end.

Mr. Townsend, attorney for the minority stockholders of the Escondido Mining Company, was in Cananea on Wednesday with Mrs. Sturgis Sanders, and filed the order in the court of the first instance, revoking Mrs. Sturgis' power of attorney to Mr. Graham and transferring the same to her husband. The next move in this interesting case will be an application to the court at Cananea by a majority of stockholders of the Escondido Mining Company for a called meeting of the stockholders of that company, at which time the Kansas City capitalists will appear with proxies from a majority of the original owners of the El Tigre mine, giving them control of the meeting.

It is understood that this meeting will be held at Cananea on June 4. Judging from these important transactions of the week, the end is in sight.

402 WERE KILLED IN SAN FRANCISCO.

SAN FRANCISCO, May 25.—According to records to date in the coroner's office, the death list from the fire and earthquake is now 402. The last name added to those who forfeited their lives in the disaster is that of Fred F. Stanley, a letter carrier.

COMING TO DOUGLAS.

Man Who Coasted Down Mountain in Stage Leaves Phoenix.

George E. Tutthill, who has spent the past winter in Phoenix, leaves tonight for Douglas, says the Gazette. He will return to his eastern home from there.

Mr. Tutthill has had quite a taste of Arizona during the time he has been here. On his way to Roosevelt during the winter he was given plenty of excitement. The scenery was wild enough for him, but the team he was riding behind was still more wild, and took occasion to spill him over the mountain side.

He coasted down over the rocky surface for a distance of two miles, more or less, and while he is a very large man, it didn't hurt the mountain any. It was otherwise with Mr. Tutthill. He suffered a broken arm and lost considerable epidermis, but didn't lose his temper.

He learned afterwards that there was no extra charge for the extra entertainment, but that didn't pay the doctor bill, and he proceeded to sue the star company, and has just been awarded \$500 by a jury in the district court. After figuring up his doctor bill, lawyer's fees and other expenses incident to the fall and the suit, he figures that he is out only \$200.

The experience cost him \$700, and he got \$500 of that back in the suit. The rest of it he has charged up to experience, so the account will balance.

That New York policeman who arrested George W. Perkins may have been only trying to keep himself in practice so that he would be equal to the occasion if some one should hand him a subpoena for Mr. Rockefeller.
